

Let's Review (5 minutes)

- i. If you are seeking to experience a lasting revival, there is a vital element that you need to add to your Bible study. You don't see it outwardly, but you do see the results.

- ii. For a rocket to take off, the rocket fuel requires an oxidizer. If you are reading the Bible, add the oxidizer of prayer. When you connect to God through prayer, it unleashes the power of God in your life.

- iii. Prayer is the engine room of the Christian experience. The Lord's Prayer is a guide and model for how we should pray.

- iv. When you pray, you are enabling God to do things in answer to your prayer that He would not do if you did not ask.

- v. Praying allows you to learn to recognize God's voice.

- vi. Remember that just because you ask God for something does not mean that you are going to get it. One of the most significant truths of the Christian life is that God knows better what you need than you do. Prayer allows you to learn to trust God and His decisions.

- vii. Prayer is not a time for you to make promises to God, it is a time for you to claim the promises He has made to you in His Word.

- viii. Prayer grows your faith and brings alive the word of God in your Christian experience.
